Simcoe Region

walker

ABOUT WALKER 100% Canadian Owned and Operated - Since 1887

Walker is a fifth-generation Canadian family-owned and operated company

1887 – First limestone quarry in Stamford Township, NF. Currently still operating as Walker Brothers Quarries

Multi-Divisional Diversified company focused on innovation and sustainability

- ~1300 Employees
- Aggregates & Construction
  - Aggregates, Asphalt, Ready-Mix, Trucking, Pavement Preservation, Road Construction
- Environmental
  - Waste Disposal, Organics Recovery, Renewable Energy
- Emulsions

A LEGACY OF CONTINUOUS OPERATION IN SIMCOE

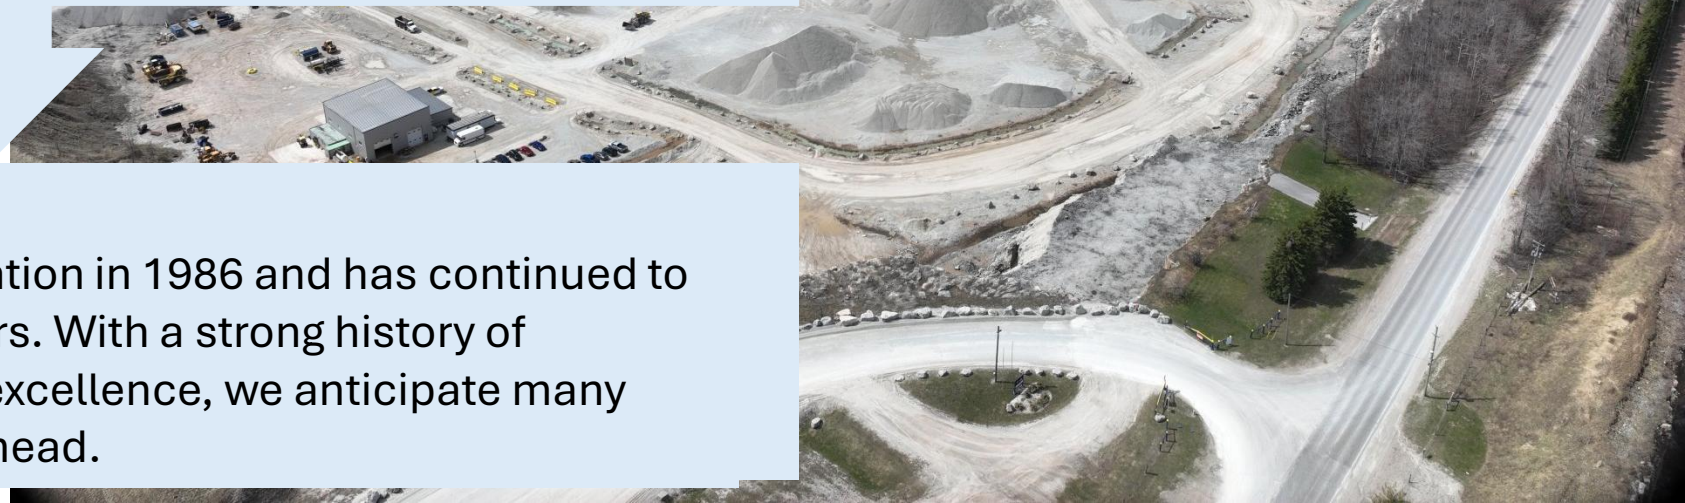

1965 – McKean Brothers

McKean Brothers established the quarry in 1965 and operated the site successfully for 20 years. In 1985, ownership was transferred to Seeley & Arnill.

1985 – Seeley & Arnill

Seeley & Arnill acquired McKean Brothers Quarry in 1985 and continued operations for 11 years before the site was acquired by Walker Aggregates.

1996 – Walker Aggregates

Walker Aggregates acquired the operation in 1986 and has continued to operate the quarry for the past 40 years. With a strong history of investment, growth, and operational excellence, we anticipate many more years of successful operation ahead.

WHY AGGREGATES MATTER

Builds Ontario: Essential materials for roads, bridges, transit, housing, and other infrastructure.

Drives construction: Critical inputs for concrete, asphalt, foundations, and site development.

Supports economic growth: Enables housing and infrastructure development while supporting jobs across the supply chain.

Keeps projects affordable: Local aggregate supply reduces transportation costs, truck traffic, and associated emissions.

Strategic resource: Long-term access is essential to meeting Ontario's growing infrastructure and development needs.

AGGREGATE LICENSING PROCESS

Licensing:
Licensing a new pit or quarry takes years of planning, studies and consultation.

Environmental Compliance:

In order to keep an aggregate license, operators must stay within the regulations and limitations that have been outlined by regulators.

RESPONSIBLE RESOURCE MANAGEMENT & OPERATIONS

Progressive Rehabilitation:

- Balancing resource extraction with environmental stewardship.
- Working with local community to support long-term land use.

Work safe and go home safe, every day.

- **Train & Prepare**: Mandatory safety training, LSR/LOTO procedures, and annual spring start-ups.
- **Communicate Daily:** Daily safety meetings and monthly safety talks keep safety top of mind.
- **Identify & Prevent Hazards:** Regular inspections, site visits, preventive maintenance, and equipment checks.
- **Promote Safe Operations:** Clear signage, speed controls, and equipment with built-in safety features.
- **Learn & Improve:** Near-miss reporting and proactive hazard assessment help prevent incidents.
- **Protect Everyone:** Site orientations for customers/visitors and year-round employee wellness support.

SUPPORTING LOCAL – GRAVEL DONATIONS IN SIMCOE

Late Summer Night Garden Party – Clearview Township

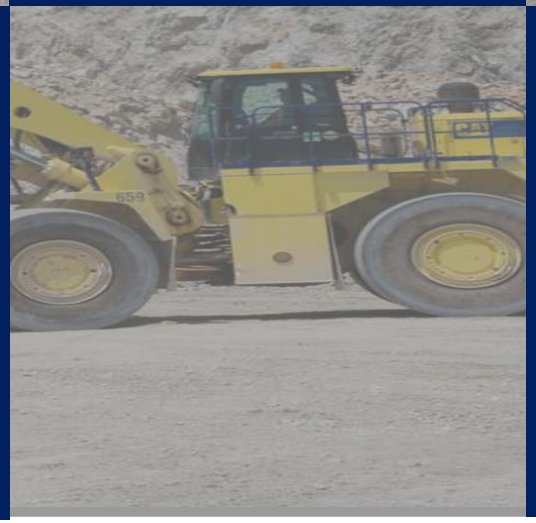

Singhampton Community Centre

Habitat for Humanity

Great Northern Exhibition/ Collingwood Agricultural Society

Stream Rehabilitation Carruthers Park- Clearview Township

SUPPORTING LOCAL - MONETARY DONATIONS IN SIMCOE

Mariposa House Hospice Expansion Project

The expansion from six to ten beds at Mariposa House Hospice is crucial for our community. It allows us to serve significantly more residents and families facing end-of-life journeys, reducing wait times and ensuring more people receive compassionate, specialized palliative care when they need it most.

- Mariposa House Hospice

Simcoe County Canadian Mental Health Association

Donations go towards community mental health programs (counseling and therapy), crisis response, housing, community education, and operational needs.

Clearview Food Bank

Donations go towards perishable and fresh food, emergency hampers, and overall operations.

SUPPORTING LOCAL - MONETARY DONATIONS IN SIMCOE

Habitat for Humanity Orillia Branch
